Matteo Montani
SOFTWARE DEVELOPER

WORK EXPERIENCE

Software Developer
FC Work Group SRL | Nov 2024 – Present

Development of web and software solutions on the Microsoft stack (.NET, ASP.NET, C#, SQL Server), focusing on scalable and maintainable applications.
 Main activities:
- Creating and maintaining web applications and web services
- Developing scripts to automate business processes
- Collaborating with the team to enhance application performance
- Implementing custom solutions for internal and external clients
- Integrated AI-assisted development tools to improve code quality and reduce delivery time

FREELANCE PROJECTS

Independent development of web applications and bots in the crypto/web3 space, using technologies like TypeScript, Node.js, Next.js, SQLite, and PostgreSQL.
 Full-stack approach with attention to performance, security, and API integration.

EDUCATION

IFOA, EPICODE | Jan – Jul 2024

Full Stack Developer Course
(Online, 960 hours)
Successfully completed a Full Stack Developer course, deepening my skills in desktop and mobile web development, building static, dynamic, and interactive pages, and managing databases to retrieve and store data.

CEFI Institute | Nov 2020 – Jul 2021

System and Network Administrator Course
(Online, 400 hours)
Completed a specialized course in systems and network administration, enhancing skills on Windows Server and Linux Server, as well as databases like Oracle and SQL Server.

EDUCATION

Liceo Scientifico John F. Kennedy - Rome
Liceo Scientifico P.N.I. 2006 - 2010
